

MSN-Nurse Education Clinical Acknowledgement Form

I _____ acknowledge I am responsible for finding my own clinical sites and preceptors.

The clinical practicum for the MSN-NE program is associated with NURS 867 (Fall Semester) and NURS 869 (Spring Semester). It consists of 135 practicum hours. Clinicals include two contract approved sites, one site for direct patient care and the second site for indirect role experiences, alongside one preceptor for each site. The clinical sites must include one hospital setting and one educational “school” setting.

By signing this form, I am acknowledging, that if I am unable to find clinical sites or preceptors, I understand, I will be required to complete clinicals in Hays, Kansas incurring all associated costs including a Kansas RN license.
