Preparing for Travel

To begin preparing for travel, obtain all travel information from traveler. The Travel Information form can be used to request all relevant travel information from the traveler to assist the Administrative Assistant in preparing travel approvals and forms. The Travel Information form can be found at: [Travel Information Form](#).

Trip Approval

Prior to travel and before incurring any costs such as airfare or registration, trip approval must be obtained to ensure the employee is approved to travel. Approval is requested by submitting a spend authorization in Workday. Local Hays/campus travel does not require a spend authorization. Trip approval requests are approved by the traveler's manager and respective Dean/VP.

1. Complete the Spend Authorization in Workday: For assistance, review the procedure to submit a Spend Authorization in Workday: [Create Spend Authorization for Trip Approval](#)
 - a. If a group of students are traveling with faculty/staff a spend authorization should be submitted under the faculty/staff name and a list of all student traveler names must be attached to obtain approval for the student travelers.
 - If students are traveling without faculty/staff, the spend authorization should be submitted under the group advisors name or the department chair that the group is associated with.
2. After approval has been obtained and the Spend Authorization has been approved, the traveler can start making arrangements for travel by reserving hotel rooms, booking airfare, registering for conference, etc.
 - a. If a University P-Card is being used to pay for travel expenses, the p-card travel policies should be reviewed: [P-Card Travel Policies and Procedures](#)
 - b. If the traveler pays for expenses personally, the expenses will not be reimbursed until after the trip has been completed and all necessary documentation has been submitted through Workday.
3. The travel receipt form should be started in the Workflow. The travel receipt form is a working document until after the trip has been completed. The form can be used to estimate the amount of expenses the traveler will incur during the trip. The estimate can be used when submitting the Spend Authorization above.
 - a. The form will be saved, not submitted, until after the trip is completed. Changes and updates to the form may be necessary when the traveler returns and as expenses are incurred.
 - b. Once the trip has been completed and all changes have been made to the form, it will be submitted for approval. Once submitted the submitter will no longer have access to make changes to the form. See the 'After the Trip: Completing the Travel Process' section for procedures on completing the trip.

P-Card: Paying travel expenses with a University P-Card

- Any state allowed expenses should be put on a University P-Card unless the trip includes personal time.
- Regular P-Card guidelines should be followed while on travel, such as:
 - o Original receipts
 - o Itemized receipt showing each item charged, prices and taxes (if applicable) charged
 - o Receipts should be turned in to the cardholder's reconciler immediately following trip to ensure timely processing of p-card transactions and traveler's personal reimbursement
- Any personal charges accidentally paid with a P-Card must be immediately reimbursed to the University. The traveler will not be reimbursed any allowable expenses until the personal portion is reimbursed.
 - o The personal portion cannot be deducted from the traveler's reimbursement amount.
 - o Reimbursement for the personal charge should be sent to Accounts Payable.
 - o The transaction in Workday should be processed as soon as it appears.
- All P-Card transactions must be processed by Accounts Payable before the Expense Report can be paid to the traveler.

Per Diem: Meals, Incidental Expenses and Lodging

Meals and Incidental Expenses

Meals are reimbursed to the traveler based on the daily Meal and Incidental Expense (M&IE) rate from the U.S. General Services Administration website. Meal allowance is determined by the destination, departure times and arrival times of travel.

The Meal and Incidental Expense rate consists of the following:

Meals – including the cost of meals, taxes, and tips

Incidental Expense – including all fees and tips to hotel porters, bellhops, doormen, and maids

Looking up Meals and Incidental Expense rates in the Contiguous U.S., Alaska, Hawaii, & U.S. Territories:

1. Log in to Workday
2. Click on the Expense Worklet
3. Click the link for the correct date range, based on travel dates, to open the Conus Rates Spreadsheet
4. Find the city of the traveler's destination in the chart
 - a. To search for a specific city, do a CTRL+F and type the two-letter state abbreviation, comma, city name. (EX. KS, HAYS)
5. The M&IE rate is found in the far-right column of the chart. This rate is used to determine the meal per diem allowance for the traveler.
6. Enter the M&IE rate for the traveler's destination in the appropriate M&IE Rate column on the Travel Receipt form.
7. Repeat steps 4-6 for each business destination of the trip.

Looking up Meals and Incidental Expense rates for foreign locations:

1. Log in to Workday
2. Click on the Expense Worklet
3. Click the link for "M&IE Rates (Intl) to open the U.S. Department of State Website.
4. In the Country drop down, select the country of the foreign destination and click Go.
5. Next to Previous Rates, select the correct date from the drop down based on travel dates
 - a. Choose the most recent date the CONUS rates were updated (January 1, April 1, July 1, October 1)
6. Find the city of the traveler's destination in the chart.
7. If exact city is not listed, use the 'other' rate.
8. Enter the M&IE rate for the traveler's destination in the appropriate M&IE Rate column of the Travel Receipt form daily chart.
9. **For China destinations only:** the M&IE rate must be divided in half before entering on the Travel Receipt form Ex. If the M&IE rate is \$100, the amount recorded on the travel receipt form should be \$50 ($\$100 / 2$).
10. Repeat step 3-8 for each business destination of the trip.

Meal allowance quarters

- Meal reimbursement is based on quarter days with the daily M&IE rate divided equally between quarters.
- Meal per diem will be given for the quarter the traveler departs in and the quarter the traveler returns in.

Meal Quarter	Time
Quarter 1	12:00 am – 5:59 am
Quarter 2	6:00 am – 11:59 am
Quarter 3	12:00 pm – 5:59 pm
Quarter 4	6:00 pm – 11:59 pm

Provided Meals

- If a meal is provided to the traveler at no cost, the meal should be deducted from the meal allowance. Meals provided include meals provided at a conference, included in a registration, at a lodging establishment, hospitality, or another outside source.
 - o Hot complimentary breakfasts containing protein (i.e., buffet or server-style with meat and/or eggs) will need to be deducted as a meal provided.
 - o Light complimentary continental breakfasts (i.e., pastries, baked goods, fruit, juice, coffee) do not need to be deducted as a meal provided.
- If the traveler is staying with family or friends during the trip, the traveler may claim meal allowances and does not need to reduce those meals provided.
- To reduce meals provided during a given travel day, the daily M&IE rate will be reduced by the percentage amount of the meal that was provided. By selecting a meal in the meals provided section of the chart in the travel receipt form, the form will automatically reduce the meal allowance based on these percentages:
 - o Breakfast – 15 %
 - o Lunch – 35 %
 - o Dinner – 50 %
- If a meal is provided on a day that there are multiple lines due to multiple locations/rates, the meal must be selected on each line for that day in order for the deduction to calculate correctly.
- For partial travel days with provided meals, the quarter amount is calculated first and then the meal deduction % is applied. The travel receipt form chart will do this calculation automatically.
- If all meals are provided for a day, the reduction to the M&IE rate will be 100% and there will be no allowance for incidental expenses reimbursed to the traveler for that day.

One-Day Meals

- A one-day meal allowance can be reimbursed to a traveler for a one-day trip.
- The allowance is given when official duties require that the employee’s work day, based on full-time employee work hours, be extended three hours or more past their normal schedule.
- The one-day meal allowance will only be given if the one-day trip is also over 30 miles from the employee’s official station.
- If a meal is provided to the traveler at no cost, the traveler will not be able to also receive the one-day meal allowance.
- For travel on non-scheduled work days, regular full time employee work hours are assumed.
- To qualify for the dinner meal allowance, the travelers return time must be 6:30 p.m. or later.

Employee Status	Regular Work Schedule	Work hours needed to qualify
Full-time employee	8:00 – 4:30 Mon – Fri	At least 11 hours
³ / ₄ -time employee	6 hours a day	Same as full-time employees
Part-time employee	4 hours a day	Same as full-time employees
Student	Various	Same as full-time employees

- Teaching faculty members are assumed to be working a full day, which equals 8 hours, no matter if they are in the office 2 or 8 hours.

Student Meals

- Students may be reimbursed meal per diem based on the same guidelines as employees.
- Student's meal per diem must be reimbursed to the student directly by submitting an Expense Report payable to the student and completing a travel receipt form for each student.
- The Imprest fund may also be used to pay for student meals (see Imprest Fund in this manual for further instructions).
- Employees or Faculty **should not** pay for student meals personally and request reimbursement.

Travel Hospitality

- Hospitality can be paid while on travel with all hospitality information provided.
- To qualify for travel hospitality, the meeting must have non-employee participant(s).
- The hospitality meal should be deducted from the meal allowance as a meal provided for any employees attending the function.

Lodging

Lodging reimbursement is limited to the established rates from the U.S. General Services Administration website. Lodging rates are determined by the destination of travel and the month that the travel occurs in.

- Lodging should be paid on the University P-Card whenever possible to claim tax exemption, when applicable.
 - o Kansas hotels are tax exempt from state, county, city, and sales taxes
 - o If tax is charged, a refund must be requested if the tax is \$5.00 or more.
 - o Other taxes (bed/occupancy) are not exempt
- Itemized receipts are required and must show the room rate, miscellaneous costs, and taxes charged. Receipt must reflect payment made and show a zero balance.
- It is highly discouraged to use a booking website due to the complications of appropriate documentation, prepayment, and extra fees incurred (booking fees). Contact the lodging establishment directly to book a hotel room.
- Lodging cannot be prepaid on a p-card.
- Airbnbs are allowed if there is a cost saving versus a hotel. Documentation is required as proof of cost savings (quote from lodging establishment per night, per room).
 - o Usually, Airbnbs' only option is to pay in full when making the reservation. Due to cost savings prepayment would be allowed.
 - o If the trip is cancelled for personal reasons, the cost of the Airbnb will need to be personally reimbursed by the traveler(s) to FHSU.

Lodging Rates

- The traveler may be reimbursed the lodging establishment's lowest available rate for normal single occupancy assuming it falls within the allowed rates for the destination.
- The traveler can be reimbursed for 1.5 times more than the rate established for the traveler's destination.
 - o The lodging rate at 1.5 times does not include any taxes charged.
 - o 'Lodging claimed at higher rate' should be marked in the Lodging section of the travel receipt form.
- If the traveler is staying at a hotel that is above 1.5 times the rate, the hotel **must** be a conference hotel, and a conference flyer must be attached to the receipts showing the conference hotel and rate information.
 - o 'Lodging claimed at conference rate' should be marked in the Lodging section of the travel receipt form.
- If the hotel is not a conference hotel, the traveler will not be reimbursed more than 1.5 times the established rate.

Looking up lodging rates in the Contiguous U.S., Alaska, Hawaii, & U.S. Territories:

1. Log in to Workday
2. Click on the Expense Worklet
3. Click the link for the correct date range, based on travel dates, to open the Conus Rates Spreadsheet
4. Find the city of the traveler's destination in the chart
 - a. To search for a specific city, do a CTRL+F and type the two-letter state abbreviation, comma, city name. (EX. KS, HAYS)
5. If the city is listed multiple times, check the date range next to the location. Choose the rates on the line next to the date range that the travel occurs in.
6. The Lodging rate is found in the middle columns of the chart. This rate is used to determine the lodging allowance for the traveler. The second lodging column is the rate x 1.5 and is the maximum allowed lodging rate for that location, before taxes.
7. Repeat steps 4-5 for each business destination of the trip.

Lodging rates for foreign travel

- Lodging in foreign destinations will be paid at the actual expense and are not limited to a certain amount.
-

Multiple people in a room

- If the traveler is staying with a non-employee, the single room rate plus taxes must be documented and this is the amount the traveler will be reimbursed.
- If the traveler and another state employee stay in a room together, only one person who paid for the room can be reimbursed for the lodging expense.
 - o The traveler claiming the lodging reimbursement will put their portion of the lodging expense in the chart on their travel receipt form.
 - o The other employee's lodging expense will be entered on the 'Other Lodging' line in the lodging section of the travel receipt form.
 - o Each traveler must approve the other traveler's travel receipt form.

Transportation: Airfare, Motor Pool, Rental Car, and Private Vehicles

The State requires the employee to use the most economical and advantageous modes of transportation. If multiple state employees are traveling to the same destination and function, arrangements must be made for all employees to travel together. If an employee chooses to travel separately due to personal reasons, that employee will not be eligible for reimbursement of additional travel costs.

Travel within 500 miles from Official Station

- If a traveler's destination is within 500 miles of their official station, the traveler may choose to drive to their destination and will not need to get airfare quotes.
- The destination's per diem rates (meals, incidental expense, and lodging) will still be applicable.

Travel greater than 500 miles from Official Station

- If a traveler's destination is greater than 500 miles of their official station, the traveler will need to obtain an airfare quote, if they choose to drive.
- Lodging in route cannot be reimbursed and subsistence will only be reimbursed as if they are flying per the airfare quote.
- The lesser of the mileage or airfare quote will be reimbursed to the traveler for transportation expense.

Airfare

- Airfare can be purchased for the traveler's trip on the University P-Card or by paying personally and reimbursement will be paid on the travel receipt form after the trip.
- If personal time is being taken, airfare should be paid personally, and reimbursement will be paid on the travel receipt form after the trip. An airfare quote must be provided to show the cost of airfare minus personal days. See Airfare Quote section below.
- Travelers must use the most economical mode of airline travel.
 - o Basic economy or economy class should be used. If the traveler chooses to upgrade to a higher class, they must pay for the airfare personally. Specific justification must be provided for the expense for airfare when economy class is not used. Verifying statement and documentation is required for airline expenses other than Basic or Economy rate.
 - o One level of seat upgrade may be approved to provide additional legroom on any leg of a flight that exceeds 3 hours in length per airline documentation.
 - For example: booking with United Airlines, this would allow seat selection of preferred seating.
 - o Costs associated with obtaining a confirmed seat guarantee and/or early boarding may be authorized per flight segment with documentation (screenshot) showing that the free economy selection is full.
- Travelers can book their airfare via the internet or a travel agency.
- Airports approved for FHSU travelers are Hays, Wichita, Kansas City, and Denver however, if flying from an airport other than Hays, an airfare comparison form must be completed.

Airfare Comparison Form

- Beginning January 7, 2019, employees purchasing airfare for travel should fly from the Hays airport.
- If the employee finds a more cost-effective flight from an alternative airport, they must complete the airfare comparison form, which provides a cost comparison for the non-Hays airport.
- The form can be found on the Business Office workflow at <https://hub.fhsu.edu/sites/workflow/Finance/AirfareComparisonForm/Forms/AllItems.aspx>
- A copy of this form along with the airfare quotes and PDF of mileage search results (when driving a personal vehicle) used to complete the form will need to be attached to the employee’s travel receipt form that is submitted to the Business Office.
- If an employee completes the cost comparison and the Hays airport is the lowest cost option, they should arrange their flights from the Hays airport.
- If the employee wishes to fly from the non-Hays airport when it is the more expensive option, the employee must pay for all expenses personally. They will be reimbursed after their trip but limited to the amount that the Hays airfare would have been since it was the cheaper option.

Acceptable Departure Time for Travel Involving Flights

- The following guidelines should be followed when it is justified for the employee traveling on a departing flight to drive to the airport city the day before the flight, thus incurring a nights lodging and additional per diem.
- If it is possible for the employee to leave their official station by 7:00 a.m. and travel to the airport city, arriving 2 hours prior to the departure flight time for check in, they must depart the day of the flight. No lodging or additional per diem will be allowed for departing prior to the day of the flight.
- If the employee would have to depart their official station prior to 7:00 a.m. in order to make it to the airport city to meet the 2-hour check in window, the employee is allowed to travel to the airport city the afternoon/evening prior to the day of flight departure. One night’s lodging and extra per diem would be allowed.
- Below is guidance for the most used airports. For all other airports, employees should use MapQuest or Google Maps to determine travel time.
 - o If the employee is traveling to Wichita, KS for a flight and the departing flight time is 12:00 (Noon) or after, the employee must travel to Wichita the day of departure.
 - o If the employee is traveling to Kansas City, MO for a flight and the departing flight time is 2:00 p.m. or later, the employee must travel to Kansas City the day of departure.
 - o If the employee is traveling to Denver, CO for a flight and the departing flight time is 2:00 p.m. GMT/3:00 p.m. CST, the employee must travel to Denver the day of departure.

Airport	Travel Time	Airport Check In Window	Total Time Needed After Departure From Official Station
Wichita, KS	3 hours	2 hours	5 hours
Kansas City, MO	5 hours	2 hours	7 hours
Denver, CO	6 hours	2 hours	8 hours

Airfare Quotes

- Airfare quotes should be ran and sent to the Business Office with the traveler's documentation for the following situations:
 - **Personal Time** – If the traveler takes personal time while on a business trip, a quote should be ran, at the time of booking, for the business only portion of the trip. The lower cost of the actual airfare or the quote will be reimbursed to the traveler.
 - **Upgrades** – If the traveler upgrades the class they are traveling on, a quote should be ran to show the cost of the economy class flight. The lower of the actual airfare or the economy class quote will be reimbursed to the traveler.
 - **Non-Approved Airport** – If the traveler is flying out of an airport that is not an approved airport, a similar flight and departure time quote should be ran flying out of an approved airport. Justification must also be provided for the reason why the traveler is not flying from one of the approved airports. The lower of the actual airfare or the approved airport quote will be reimbursed to the traveler.
 - **Booking Airfare and Lodging together** – If the traveler books their airfare and lodging as a package, and there is not a breakdown on the receipt for the cost of the individual airfare cost and individual lodging cost, a similar flight and departure time quote should be ran to show the cost of the airfare.
 - **Traveling to a destination over 500 miles from official station** – If the traveler is driving a Motor Pool vehicle, Rental Car, or Private vehicle to a destination great than 500 miles from their official station, an airfare quote should be ran from an approved airport to the travelers destination. The lower of the airfare quote and any additional expenses incurred (lodging, mileage, parking, etc.) or the Motor Pool/Rental Car/Private Vehicle cost will be reimbursed to the traveler.
- All quotes should be ran at the time of booking the airfare to compare costs before they are charged.
- If proper quotes are not obtained at the time of booking, futuristic quotes must be ran.
 - Futuristic quotes should be ran the same amount of time out as the actual flight was booked. If the actual airfare was booked 6 weeks prior to the trip, the futuristic quote should be ran for a flight 6 weeks from the date of running the quote.
 - All quotes should be ran for similar flights, departure and arrival times, and days of the week to get an accurate comparison.
