

For a Safe and Healthy Tiger Nation

TIGERS DISRUPT THE SPREAD OF INFECTIOUS DISEASES

Use a wipe to disinfect the things you or others might touch in your workspace, including:

- Countertops
- Copiers
- Light switches
- Sinks and Fixtures
- Freezers and refrigerators
- Computers and electronics
- Break room and conference room furniture and fixtures
- Disinfect anywhere you or others rest your hands
- Wipe down the things you touch before you depart a space

Disinfecting like a Tiger

- One swipe across a keyboard is sufficient
- Unfold wipe and spread it out to cover more space rather than bunching it up
- Fold the wipe over the mouse and clean the top and both sides
- Remember to clean internal doorknobs

**FORT HAYS STATE
UNIVERSITY**

COVID-19 presents an ongoing risk for every member of our campus community. To ensure you are doing your part to keep the Tiger Nation safe and healthy, go to [FHSU.edu/covid-19-response](https://www.fhsu.edu/covid-19-response).
