

FORT HAYS STATE UNIVERSITY
ATHLETIC TRAINING PROGRAM

TECHNICAL STANDARDS FOR ADMISSION

The Athletic Training Program at Fort Hays State University is a rigorous and intense program that places specific requirements and demands on the students enrolled in the program. An objective of this program is to prepare graduates to enter a variety of employment settings and to render care to a wide spectrum of individuals engaged in physical activity. The technical standards set forth by the Athletic Training Program establish the essential qualities considered necessary for students admitted to this program to achieve the knowledge, skills, and competencies of an entry-level athletic trainer, as well as meet the expectations of the program's accrediting agency (Commission on Accreditation of Athletic Training Education [CAATE]). The following abilities and expectations must be met by all students admitted to the Athletic Training Program. In the event a student is unable to fulfill these technical standards, with or without reasonable accommodation, the student will not be admitted into the program.

Compliance with the program's technical standards does not guarantee a student's eligibility for the BOC certification exam.

Candidates for selection to the Athletic Training Program must demonstrate:

- 1. The mental capacity to assimilate, analyze, synthesize, integrate concepts and problem solve to formulate assessment and therapeutic judgments and to be able to distinguish deviations from the norm.*
- 2. Sufficient postural and neuromuscular control, sensory function, and coordination to perform appropriate physical examinations using accepted techniques; and accurately, safely and efficiently use equipment and materials during the assessment and treatment of patients.*
- 3. The ability to communicate effectively and sensitively with patients and colleagues, including individuals from different cultural and social backgrounds; this includes, but is not limited to, the ability to establish rapport with patients and communicate judgements and treatment information effectively. Students must be able to understand and speak the English language at a level consistent with competent professional practice.*
- 4. The ability to record the physical examination results and a treatment plan clearly and accurately.*
- 5. The capacity to maintain composure and continue to function well during periods of high stress.*
- 6. The perseverance, diligence and commitment to complete the athletic training education program as outlined and sequenced.*
- 7. Flexibility and the ability to adjust to changing situations and uncertainty in clinical situations.*
- 8. Affective skills and appropriate demeanor and rapport that relate to professional education and quality patient care.*

Candidates for selection to the athletic training program will be required to verify they understand and meet these technical standards or they believe that, with certain accommodations, they can meet the standards. Technical standards will be evaluated through requirements associated with ATEP 210 Introduction to Athletic Training Clinical and ATEP 220 Emergency Care in Athletic Training as well as verification of a physical examination by a licensed physician or other qualified health care provider.

The **Coordinator of Accessibility Services** on the campus at Fort Hays State University will evaluate a student who states he/she could meet the program technical standards with accommodation and confirm the stated condition qualifies as a disability under applicable laws. Students will provide documentation of the disability and the most recent testing/evaluation by a certified, licensed or professional person who training is commonly accepted for establishing a specific diagnosis. *The Student Accessibility Services office is located in the Kelly Center, Picken Hall 111, 785-628-4401. This is the appropriate office for students, faculty or staff to contact to verify and notify the University of a student's documented disability.*

If a student states he/she can meet the technical standards with accommodation, then the University will determine whether it agrees that the student can meet the technical standards with reasonable accommodation. This includes a review whether the accommodations requested are reasonable, taking into account whether accommodation would jeopardize clinician/patient safety, the education process of the student or institution including all coursework, clinical experience and internships deemed essential to graduation.

I certify I have read and understand the technical standards for selection listed above, and I believe to the best of my knowledge that I meet each of these standards without accommodation. I understand that if I am unable to meet these standards I will not be admitted into the program.

Alternative statement for students requesting accommodations:

I certify I have read and understand the technical standards of selection listed above and I believe to the best of my knowledge that I can meet each of these standards with certain accommodations. I will contact the **Coordinator of Accessibility Services** at the Kelly Center (Picken Hall 111, 785-628-4401) on the campus at Fort Hays State University to determine what accommodations may be available and provide them with current documentation of my disability. I understand if I am unable to meet these standards with or without accommodations, I will not be admitted into the program.
