Essay questions for graduate school application:

The application process for graduate school gathers a lot of information about you. In an effort to learn more about you and your disposition, complete each of these questions in a manner that demonstrates your current knowledge and professional writing. The answers will provide the selection committee additional information about you and your thoughts on the field of school psychology. Each answer should be approximately 350 words.

1. How have your experiences (education, work, volunteer, and/or personal) prepared you for graduate study in school psychology?

2. As a school psychologist, you will be collaborating with many professionals in schools. Please describe how you would work with a classroom teacher that is not following your recommendations for an intervention in his/her classroom.
